

Rescue Diver

Anyone with a valid Advanced Open Water Scuba Certification can sign up for this course. This course focuses on expanding your core diving skill set by applying dive theory to real life diving scenarios.

The Rescue Diver Certification Course is an important and crucial step in expanding a diver's knowledge and experience beyond a purely recreational level. The course is demanding, but realistic in its conduct, content, and approach. Rescue training expands your knowledge of diving, increases your level of diving skill and preparedness, and makes you more aware of what is happening around you in the diving environment. You will learn how to be adequately prepared for an emergency and how to manage a diving emergency if one should occur.

RESCUE DIVER COURSE

\$229 PADI Rescue Diver E-Learning

- Two Class and Two Pool Sessions
- Up to two days at the ocean depending on class size.

Required Materials:

- E-Learning @ www.divensurf.com
- Compass, Timing Device, Dive Knife, Slate and Whistle
- For class dives, you must supply a Total Scuba Diving System including: BCD, Regulator, Alternate Air Source, Dive Computer or Submersible Pressure Gauge. This equipment may be rented.

Prerequisite for Course:

- Certified within the last two years in First Aid and CPR.
 - The EFR Course taught here at Dive N' Surf meets this requirement.
- It is strongly recommended that any student becoming a Rescue Diver should also be certified in administering pure O₂.
 - The DAN O₂ course taught here at Dive N' Surf meets this recommendation.

Recommended Gear:

- Tarp, first-aid kit, etc.

504 North Broadway, Redondo Beach, CA 90277
