

# Dive the Caribbean Turks & Caicos 2012 Dive N' Surf David Jensen Trip Leader

## *Turks & Caicos*

*19 May to 26 May 2012*

A large area of the coast of Provo comprises the Princess Alexandra National Park within which there is no commercial or sport fishing allowed. As a result the diver benefits from a profusion of marine life, much of which remains undisturbed in its reef habitat by visiting divers. Even outside the boundaries of the Princess Alexandra National Park the dive operators all happily support a policy of reef preservation and conservation.
