

Instructor Development Course

Dive N' Surf's PADI Instructor Development Course, IDC, is one of the most thorough and professional programs available. The course builds important diving skills used by anyone wishing to Instruct, Lead and Supervise divers and students in training. The PADI IDC is just the beginning of PADI's leadership level programs and will prepare you for the PADI Instructor Examination.

Dive N' Surf's program consists of Academic; Confined Water, and Open Water Sessions. After completion of the IDC, a candidate will have achieved a high level of personal diving skill, instructor-level knowledge of diving theory, significant training in instructor assistance during training activities, and will be able to assume a role of responsibility for the welfare of other divers in their charge.
